

# MICHAEL CHAVEZ

## FULL-STACK DEVELOPER

### PROFESSIONAL SUMMARY

As a full-stack developer, I possess a comprehensive skill set encompassing both front-end and back-end development, enabling me to deliver dynamic web applications. I thrive in collaborative environments, leveraging my expertise to create exceptional, well-structured code. Whether working independently or as part of a team, my passion for producing organized and quality code remains strong.

### WORK EXPERIENCE

#### SD Marketing

##### Full-stack Developer

##### 2016 - Present

- Developed progressive web applications using a diverse range of programming languages and tools, catering to both internal company needs and client projects.
- Collaborated closely with product owners to define coding requirements and goals, ensuring the successful delivery of high-quality products.
- Conducted comprehensive testing and implemented automated testing procedures to guarantee the superior quality of the final products.
- Led and managed front-end and back-end developers, establishing industry-standard processes and fostering a collaborative work environment.
- Facilitated productive meetings with UI/UX designers to create low fidelity and high fidelity prototypes, aligning them with the vision of product owners.

#### Freelance

##### Full-stack Developer

##### 2022 - Present

- Assisted teams with creating API endpoints for backend servers
- Assisted teams with creating components for front-end applications
